## Documentation de la recherche.

## Références:

- <a href="http://openframeworks.cc/">http://openframeworks.cc/</a> Ce projet est basé sur openFrameworks, une bibliothèque C++. Installé sur l'ordinateur portable.
- <a href="http://openframeworks.cc/setup/raspberrypi/">http://openframeworks.cc/setup/raspberrypi/</a> Ne fonctionne pas, ne compile pas. PICO incompatible.
- <a href="https://github.com/aubio/ofxAubio">https://github.com/aubio/ofxAubio</a> Ne compile pas.
- <a href="https://github.com/micknoise/Maximilian">https://github.com/micknoise/Maximilian</a> Cette bibliothèque c++ comprend une implantation sur openFramworks. Elle a été utilisée pour générer des échantillons audio.
- <a href="https://github.com/leozimmerman/ofxFilterbank">https://github.com/leozimmerman/ofxFilterbank</a> Cette bibliothèque c++, ajout à openFrameworks, est un détecteur de *pitch*. Le programme traduit ce qu'il détecte en format *integer* dont on peut se servir en tant qu'information *MIDI*.
- <a href="http://www.instructables.com/id/RasPi-OpenCV-Face-Tracking/">http://www.instructables.com/id/RasPi-OpenCV-Face-Tracking/</a> Programme simple pour la détection de visage sur un raspberry pi et une caméra infra-rouge.
